

I have used Myriam's VA (Virtual Assistant) services to assist me in my home-based business.

Myriam's creativity and swiftness have released me from handling the annoying but necessary chores of my business (for which I have nor time nor desire), and have enabled me to concentrate solely on the chocolate manufacturing and sales, leaving me with doing what I love.

Like me, an ex-Belgian, she speaks a number of languages, is professional and service minded. I warmly recommend her for every busy independent professional who needs to delegate in order to succeed in his/her activity.
